Sir:

I, Lea EISENBACK, hereby declare and state as follows:

I am a co-inventor of the above-identified application and my educational and professional experience is presented in the curriculum vitae attached hereto.

Also attached are copies of the Tirosh et al., "'1-8 interferon inducible gene family': putative colon carcinoma-associated antigens", *British Journal of Cancer*, 97:1655-1663 (2007), paper and an unpublished report entitled "The effect of SNPs in Tumor Associated Antigens on the immunogenicity of peptide based vaccines".

The experiments presented in the attached Tirosh et al., paper and in the unpublished report were conducted by me or under my direct supervision and I can attest of my own personal knowledge that all the results reported therein are true and accurate.

The undersigned declares further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
